- SQL
- UI/UX
- HTML
- CSS
- Javascript
- C
- MYSQL

⚖ SOFT SKILLS

Time Management

Leadership

Communication

Creativity

🌐 LANGUAGES

- English
- Malayalam
- Hindi

🧩 SUMMARY

Seeking a challenging, growth-oriented position in a progressive and innovative organization. Through my professional skill and constant drive to success, I can contribute to the further development of both the organization and myself.

📁 PROJECT

HOSPITAL WEBSITE
A Django-based website enabling clients to select doctors across multiple departments. The platform offers a user-friendly interface for users to choose their preferred healthcare professionals. Live version available at:
https://amalappu.pythonanywhere.com

GESTURE VOCALIZER FOR DISABLED PERSONS
Developed a two-way communication system to facilitate interaction between individuals with speech impairments and others. Implemented a speech synthesizer circuit to translate hand movements into speech output and display text in a human-understandable language corresponding to the gestures made.
